TITLE 32—NATIONAL DEFENSE

Chapter II—National Guard and State Guard, War Department

PART 211—STATE GUARD REGULATIONS

MISCELLANEOUS AMENDMENTS

The following amendments to the regulations contained in Part 211 are hereby prescribed:

1. Section 211.3 is amended by the addition of a new paragraph designated (d) to read as follows:

§ 211.3 *State guard and Federal service.*

(d) *Enlisted Reserve Corps.* Members of the Enlisted Reserve Corps may be enrolled or commissioned in a State guard without jeopardy to their Reserve status. Service in the State guard will not interfere with their being ordered to active Federal duty, in which case the State service will be terminated by the State authorities.

2. In § 211.6 amend paragraph (b) (3). In paragraph (c) amend the third sentence of subparagraph (1); recind subparagraphs (4), (5) and (6) and paragraph (d) and substitute the following; in paragraph (e) the first portion of the third sentence is amended to read as follows:

§ 211.6 *Arms and equipment.* . . .

(b) *Issue.*

(3) *Emergency issues.* In case of emergency, the commanding general of a service command may furnish such arms, ammunition, clothing and equipment, or any other similar assistance deemed necessary to enable the State guard to accomplish its mission, which, if withheld, the use of Federal troops would be required.

(c) *Accountability and responsibility.*—(1) *General.* . . . The accounting system employed will conform to National Guard Regulations 75-3, 75-4, 75-5, 75-7, 75-8, 75-9, and 75-11.

(4) *Disposition of Federal property.* In view of the lack of Federal status of the State guard, the commanding general of the service command will appoint officers of the Army of the United States as inspectors and surveying officers. The properly bonded State guard property officer will be shown as the accountable officer on all property disposal forms.

(i) Property which becomes unserviceable through fair wear and tear will be disposed of on an Inventory and Inspection Report (WD NGB Form 14).

(ii) Property which becomes unserviceable, except through fair wear and tear, and all lost, damaged or destroyed property, will be disposed of on WD AGO Form 15 (Report of Survey), or WD AGO Form 15-1 (Discrepancies Incident to Shipment).

(a) A State guard property officer may terminate accountability for a limited quantity of clothing only, which has been lost or destroyed through unavoidable causes incident to the service during the current fiscal year, using report of survey, WD AGO Form 15, subject to the following conditions:

The circumstances under which the loss or destruction occurred must be clearly set forth.

Not more than two such reports for any unit will be submitted during any one fiscal year.

The total money value of the clothing so dropped will not exceed an amount

equal to 30 cents per man per year on a basis of the mustered enlisted strength of the State guard unit on 1 July of the then current fiscal year.

In computing the money value of the clothing the full prices shown in current price lists will be used with no reduction for depreciation.

(b) Action by a surveying officer will not be required when the value of the clothing lost or destroyed does not exceed the amount set forth above, and the commanding general of the service command approves the report to relieve all concerned.

(c) When, in the opinion of a State guard responsible officer, the loss or destruction of the clothing referred to above is not because of negligence or carelessness of the custodian thereof, the responsible officer may execute an affidavit to that effect, setting forth all the facts, on report of survey (WD AGO Form 15), in quadruplicate. He will forward all copies to the State guard property officer who, if satisfied with the facts as given, will complete the certificate, Item 6 on Report of Survey. The State guard property officer will forward all copies to the State adjutant general who will state thereon the mustered enlisted strength of the State guard unit on 1 July of the current fiscal year, together with a statement that no previous report of survey from this unit has been submitted for this purpose during the fiscal year, or a statement of the money value of the Report of Survey submitted previously in current fiscal year. All copies of the report of survey will then be forwarded to the commanding general of the service command for final action under authority of the Secretary of War.

(iii) Checks or money orders, made payable to the Treasurer of the United States, covering collections will be forwarded by the State adjutants general to the Chief of the National Guard Bureau, through the commanding general of the service command. Statement of Property Lost, Damaged, or Destroyed (WD NGB Form 18) will be used with appropriate modifications.

(5) *Relief of State Guard property officer.* Upon relief from office, a State guard property officer may request by letter to the Chief of the National Guard Bureau, through the commanding general of the service command, that his bond be terminated. Such request will be accompanied by a copy of the orders relieving him from duty and appointing a successor. There will also be forwarded a list of property transferred to the new State guard property officer, signed by the officer requesting to be relieved and by the new State guard property officer as evidence of his receipt of the property, both documents duly dated.

(6) *Transfer accountability.* When it is necessary that the accountability for Federal property in the possession of the State guards be transferred to a successor, the commanding general of the service command will arrange the bonding of the successor without prior reference to the National Guard Bureau. The new bond will be processed as in paragraph (c) (3) of this section.

(7) *Responsibility for auditing property accounts.* The audit of the property accounts of the State guard property officer is a responsibility of the commanding general of the service command. See AR 35-6740.

(d) *Safeguarding of small arms and ammunition.* (1) The minimum requirements for a strongroom for the safekeeping of arms and ammunition, as published in NGR 75-3, August 21, 1939, are amended by the following when it is impractical to modify existing facilities to meet those requirements because of nonavailability of designated materials:

(i) A windowless interior room with but one wall on exterior of building, unless building is of masonry construction. Other walls to be at least 4 inches thick; of hard plaster over tile, brick or cement block; of hard plaster over metal lath; of 1-inch tongued and grooved clear lumber, sealing the wall inside and outside; or of lime plaster over wood or composition lath on outside, with inside reinforced with inch tongued and grooved clear lumber.

(ii) The door to open into an interior space, preferably a lighted hallway, and to be of solid hardwood, 2 inches thick, hung on solid casing, with hinges placed on inside of room.

(iii) Door lock to be a cylinder lock of an interior type, designed to give special protection against being picked or forced.

(2) Commanding generals of service commands will determine whether or not small arms and ammunition storage is adequate and secure for each unit in accordance with the above. When such storage is not considered adequate and secure, the commanding general of a service command will take necessary action to insure proper safeguard by the State concerned, or will take immediate steps to withdraw the issued arms and ammunition.

(e) *Acquisition of arms and equipment by the State from sources other than War Department.* \* \* \* The Chief of the National Guard Bureau, after receipt of request, \* \* \*

3. In § 211.7 paragraphs (c) and (d) are rescinded and the following substituted therefor; paragraph (e) pertaining to procurement, is rescinded; paragraph (f) is amended and (g) is added as follows:

#### § 211.7 Uniforms. \* \* \*

(c) *Insignia.* Except insignia denoting grade and arm or service, and that authorized herein, the wearing of buttons, cap devices, cord edge braid, hat cords, and other insignia authorized for use on uniforms of the Federal forces (including the National Guard) is not permitted.

(1) State guard personnel will wear on each outer coat (overcoat, mačkinaw), service coat and shirt, on the upper part of the outer half of the left sleeve, with top of insignia ½ inch below the shoulder seam, one distinctive shoulder sleeve insignia bearing the designation of the State guard concerned. This insignia

will be, if round, at least 2½ inches in diameter; if square, at least 2 inches square; if triangular, at least of an equivalent surface area.

(2) The authorized State guard cord edge braid of distinctive weave, silver for officers, silver and green for enlisted personnel, will be worn by State guard members, if any cord edge braid is worn.

(3) States may authorize State guard personnel who served overseas in World War II, to wear on the right shoulder sleeve any one of the shoulder sleeve insignia of the Units of the United States armed forces to which they were assigned.

(d) *Sleeve braid.* Unless the State guard uniform is wholly unlike any uniform authorized for wear by Federal military forces, including the National Guard, distinctive sleeve braid will be worn by officers only, on the service coat, and will be of any desired color except brown, gold, yellow, black, or forest green.

(e) *Procurement.* [Rescinded]

(f) *Officers uniform purchase.* Certain articles of regulation Army officers' uniforms may be purchased from the Philadelphia Quartermaster Depot by State guard officers with an identification evidenced by signed authority from the adjutant general of the appropriate State. Sleeve braid, cord edge braid, and distinctive Federal buttons will be removed prior to delivery. State guard personnel are not authorized to purchase uniforms at Army exchanges.

(g) *Wearing of decorations.* The appropriate order of precedence for wear by State guard personnel is: United States decorations or ribbons, United States service medals or ribbons, State decorations or ribbons, State service medals or ribbons, foreign decorations.

4. In § 211.8 paragraph (a) is amended and a new paragraph designated (f) is added as follows:

§ 211.8 *Training*—(a) *General.* The Secretary of War is authorized to prescribe regulations for standards of training of the State military forces contemplated herein and to use in his discretion appropriations for the Military Establishment for any expenses of the United States incident to the training of these forces except for pay, subsistence, medical care and treatment, and transportation of members of these forces between their homes and the places of performance of such training. Detailed instructions for the training of State guard organizations are such as may be prescribed and published by State and State guard authorities, based upon directives, regulations, and training programs issued by the War Department.

(f) *Funds.* Funds are made available to service commands to cover any expenses of the United States incident to the training of the State guard, provided such expenses are not prohibited by the statute (par. 2) or instructions, when such training is an integral part of a program established by the commanding general of the service command. Control over the obligation and

use of these funds is a responsibility of the commanding general of the service command. (39 Stat. 198, 54 Stat. 1206, 55 Stat. 628, 56 Stat. 762; 32 U.S.C. and Sup. 194) [AR 850-250, 21 September 1945]

Chapter I—Federal Communication

PART 4—RULES GOVERNING BROADCAST  
SERVICES OTHER THAN STANDARD BROAD-

PART 5—RULES AND REGULATIONS GOVERN-  
ING EXPERIMENTAL RADIO SERVICES

STATEMENT OF POLICY WITH RESPECT TO  
APPLICATIONS FOR EXPERIMENTAL TELEVI-  
SION AND FM DEVELOPMENTAL STATIONS

In acting upon a number of applications for experimental television stations on some of the channels now allocated for commercial television stations and for FM developmental stations in the old FM band between 42-50 megacycles and in the new FM band between 88-108 megacycles, the Commission today re-emphasized its rule that such applicants must make a satisfactory showing of a meritorious program of research and experimentation.

The Commission stated that it was fully aware of the fact that there exists a need for developmental work regarding the higher frequency channels for commercial television broadcast stations, and that there exists a need for FM developmental work on the frequencies between 88-108 megacycles to which this broadcast service is assigned, but that it would not grant applications in either of these fields unless the applicant presented a genuine program of research, and clearly showed that an experimental station was necessary for carrying forward the research.

The Commission announced that it will examine carefully the representations made by each such applicant as to whether it in fact proposes an experimental and developmental station, or whether its proposal is more properly the subject of an application for a commercial television or FM station.

In denying applications which included requests for experimentation for the purpose of conducting site surveys or field intensity measurements, the Commission pointed out that such work required radiations for only short periods which did not justify a long term station license, and that a 30-day or less authorization to operate a station which can be

applied for under § 1.365 of the Commission's rules should be adequate for such purposes.

On all sales other than sales to ultimate consumers, the additional adjustment charge provided herein as well as the adjustment charge authorized by Order No. 58 under Order A-2 may be made and collected only if each is separately stated on each invoice.

The maximum prices of the manufacturer, as adjusted, are subject to its customary terms, discounts, allowances, and other price differentials in effect during March 1942 on sales to each class of purchaser.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this order and resells it in substantially the same form, may collect from his customer, in addition to his properly established maximum price, and in effect immediately before this order was issued, an adjustment charge in the same amount as the adjustment charge herein authorized and which he pays to his supplier. If he did not have a maximum price in effect for the article at the time this order was issued, he may add the same adjustment charge to the maximum price which he hereafter establishes for his

If the applicable regulation requires the maximum resale price to be computed on the basis of cost, the reseller must find his maximum resale price (not including any permitted adjustment charges) by using as his invoice cost less any adjustment charge stated on the invoice as a separate amount.

On all sales other than sales to the ultimate consumer this adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted price is subject to each seller's customary terms, discounts, and allowances on sales of the same or similar articles.
